*Letters to Young Black Women* Oct 28 2019 Daniel Whyte III never intended to write a book to young black women. He believes, according to the Scriptures, that the older women should teach the younger women. However, after *Letters to Young Black Men: Advice & Encouragement for a Difficult Journey* became a bestselling book, readers requested that Whyte write a book for young black women as well. He prayed about it and was led to do so. Regarding the purpose of this book, Whyte states: This book is more about prevention than it is about healing. There are many other great men and women of God who are doing great work in the healing and restoration department for young black women. I believe that many of the problems that young black women are dealing with today can be prevented from happening in the first place. I also believe that in order for young women to be victorious in this life, they must operate from a position of strength and power. This book will empower them to win against their enemies: the devil, sorry men and even themselves. I hope that they will read it and never live a defeated life again. Daniel Whyte III writes a heartfelt book to his daughters and to other young black women, on the various issues of life that they face today. Whyte actually commenced the writing of this book from his hospital bed during a routine stay for chest pains. Symbolically, if Daniel Whyte III were on his deathbed, the words contained in this book are those that he would say to his six daughters. Written just for the young black woman in your life, whether you are a father, mother, grandparent or Sunday school teacher, *Letters to Young Black Women* is overflowing with loving, fatherly, "advice and encouragement for a difficult journey."

Future Girl Sep 07 2020 Anita Harris creates a realistic portrait of the "new girl" that has appeared in the twenty-first century--she may still play with Barbie, but she is also likely to play soccer or basketball, be assertive and may even be sexually aware, if not active. Building on this new definition, Harris explores the many key areas central to the lives of girls from a global perspective, such as girlspace, schools, work, aggression, sexuality and power.

*Invisible* May 16 2021 Author Jennifer Rothschild has a story for you. It's about an unlikely couple, an unusual courtship, a beautiful wedding, and an illicit affair. Despite this situation, the marriage did not fail. It flourished. Here is the story of Hosea's love for Gomer—a woman who might have disappeared into her transgressions if not for the love of her husband. It's a beautiful illustration of the story of God and Israel. Believe it or not, it's your story too. God chose you and loves you. If you wander off, He will find you. If you are afraid, He will reassure you. If you are broken, He will restore you. If you are ashamed, He will cover you. If you give up on Him, He will not give up on you. No matter where you are, God sees who you are and loves you faithfully. Through the story of Hosea and Gomer, God tenderly reaches out to you and whispers, "My daughter, my name and nature are love. My name makes you lovely. Because I am worthy, I make you worthy. I am here to remind you of who you are. You are never invisible to me."

*Offending Girls* Dec 11 2020 At the dawn of the twenty-first century, panic about girls' offending in Britain reached fever pitch. No longer sugar and spice, a 'new breed' of girl, the hedonistic, violent, binge-drinking 'ladette', was reported to have emerged. At the same time, the number of young women entering the youth justice system, including youth custody, increased dramatically. *Offending Girls* challenges simplistic and demonising popular representations of 'bad' girls and examines what exactly is new about the 'new' offending girl. In the light of enormous social and cultural changes affecting girls' lives, and expectations of them, since previous British research in this area, the book investigates whether popular stereotypes problematising female youthful behaviour resonate with the accounts of criminalised young women themselves, and to what extent they have infiltrated professional youth justice discourse. Through the lens of original detailed qualitative research in two Youth Offending Teams and a Secure Training Centre – the first study of its kind since the 'modernisation' of the youth justice system over a decade ago – *Offending Girls* questions whether the 'new' youth justice system is delivering justice for girls and young women. It also contends that the panic about an 'unprecedented crime wave' amongst girls is not supported by robust evidence, but that the interventionist thrust which characterises contemporary youth justice has had a particularly pernicious impact on girls. It will be key reading for students and academics working in the areas of criminology, criminal and youth justice, education, gender studies, youth studies, social work, sociology and social policy, as well as youth and criminal justice practitioners and policy-makers.

*A Society of Young Women* Jun 16 2021 The cities of Saudi Arabia are among the most gender segregated in the world. In recent years the Saudi government has felt increasing international pressure to offer

greater roles for women in society. Implicit in these calls for reform, however, is an assumption that the only "real" society is male society. Little consideration has been given to the rapidly evolving activities within women's spaces. This book joins young urban women in their daily lives—in the workplace, on the female university campus, at the mall—to show how these women are transforming Saudi cities from within and creating their own urban, professional, consumerist lifestyles. As young Saudi women are emerging as an increasingly visible social group, they are shaping new social norms. Their shared urban spaces offer women the opportunity to shed certain constraints and imagine themselves in new roles. But to feel included in this peer group, women must adhere to new constraints: to be sophisticated, fashionable, feminine, and modern. The position of "other" women—poor, rural, or non-Saudi women—is increasingly marginalized. While young urban women may embody the image of a "reformed" Saudi nation, the reform project ultimately remains incomplete, drawing new hierarchies and lines of exclusion among women.

*Young Women and the Body* Nov 09 2020 Young Women and the Body sets out to examine why the current generation of young women seem to be deeply unhappy with their own bodies. Dieting and disguising are commonplace, and inflicting serious harm by no means rare in fourteen to eighteen year olds. Despite prophesies to the contrary boys and adults are suffering far less. Drawing on feminist social constructionist perspectives the book seeks to examine this epidemic of body-hatred.

Repudiating Feminism Jul 06 2020 Gender equality is a widely shared value in many western societies and yet, the mention of the term feminism frequently provokes unease, bewilderment or overt hostility. Repudiating Feminism sheds light on why this is the case. Grounded in rich empirical research and providing a timely contribution to debates on engagements with feminism, Repudiating Feminism explores how young German and British women think, talk and feel about feminism. Drawing on in-depth interviews with women from different racial and class backgrounds, and with different sexual orientations, Repudiating Feminism reveals how young women's diverse positionings intersect with their views of feminism. This critical and reflexive analysis of the interplay between subjective accounts and broader cultural configurations shows how postfeminism, neoliberalism and heteronormativity mediate young women's negotiations of feminism, revealing the manner in which heterosexual norms structure engagements with feminism and its consequent association with man-hating and lesbian women. Speaking to a range of contemporary cultural trends, including the construction of essentialist notions of cultural difference and the neoliberal imperative to take responsibility for the management of one's own life, this book will be of interest to anyone studying sociology, gender and cultural studies.

*Young Women in Japan* Aug 07 2020 Young women in Japan: Transitions to adulthood received a CHOICE "Outstanding Academic Title of the Year 2010" award from the American Library Association. This book examines young women in Japan, focusing in particular on their transitions to adulthood, their conceptions of adulthood and relations with Japanese society more generally. Drawing on detailed primary research including a year-long observation of high schools and subsequent interviews over a 12 year period, it traces the experiences of a group of working class women from their last year of high-schooling in 1989 through to 2001 as they approached their thirties. It considers important aspects of the transition to adulthood including employment, marriage, divorce, childbirth and custody. It shows how the role and identities of young women changed over the course of the 1990s, exploring the impact of changes within Japanese society and global forces, and explains fully the implications for ordinary young people and their everyday lives. It considers to what extent young women's perceptions of themselves and society are shifting, and how far this can be explained by external constraints and their own experiences and decisions.

**Invisible** Dec 23 2021 Already appearing on must-read lists for Bitch, PopSugar, BookRiot, and Autostraddle, this is an exploration of women navigating serious health issues at an age where they're expected to be healthy, dating, having careers and children. Miriam's doctor didn't believe she had breast cancer. She did. Sophie navigates being the only black scientist in her lab while studying the very disease, HIV, that she hides from her coworkers. For Victoria, coming out as a transgender woman was less difficult than coming out as bipolar. Author Michele Lent Hirsch knew she couldn't be the only woman who's faced serious health issues at a young age, as well as the resulting effects on her career, her relationships, and her sense of self. What she found while researching Invisible was a surprisingly large and overlooked population with important stories to tell. Though young women with serious illness tend to be seen as outliers, young female patients are in fact the primary demographic for many illnesses. They are also one of the most ignored groups in our medical system—a system where young women, especially women of color and trans women, are invisible. And because of expectations about gender and age, young women with health issues must often deal with bias in their careers and personal lives. Not only do they feel pressured to seem perfect and youthful, they also find themselves amid labyrinthine obstacles in a culture that has one narrow idea of womanhood. Lent Hirsch weaves her own harrowing experiences together with stories from other women, perspectives from sociologists on structural inequality, and insights from neuroscientists on misogyny in health research. She shows how health issues and disabilities amplify what women in general already confront: warped beauty standards, workplace sexism, worries about romantic partners, and mistrust of their own bodies. By shining a light on this hidden demographic, Lent Hirsch explores the challenges that all women face.

Through a nationwide survey and in-depth discussion groups, Nancy and Dannah have listened carefully to the heart of your generation. And here are some things they've heard: -"I know God should be the only thing that satisfies, but if it could be Him and my friends, then I could be happy." -"It seems like I have been struggling with depression forever. I always feel like I am not good enough." - "I tell myself that I don't really listen to the song lyrics, but once I hear a song a few times and start thinking about what they're saying I realize that it's too late. It's already stuck in my head." -"For me, the whole wife and mom thing is overrated. It isn't cool to want a husband and a family." Maybe you can identify. Trying to listen to the right voices can be difficult. This book has been written by friends who will help you find the Truth. Maybe your heart is telling you that some things in your life are way off course. Certain habits and relationships have left you confused and lonely. This is not the way it's supposed to be. In this book, Nancy and Dannah expose 25 of the lies most commonly believed by your generation. They share real-life accounts from some of the young women they interviewed, along with honest stories about how they've overcome lies they believed themselves. They get down in the trenches of the battle with you. Best of all, they'll show you how to be set free by the Truth.

**Young Women and Leadership** Feb 10 2021 Through a range of case studies in Asia and the Pacific, this edited collection highlights the extent of the unique ways in which young women lead to create change in their own lives and their communities, as well as in the structures, cultures, and institutions in which they live and work. This volume challenges and reshapes the boundaries and relationships of power that animate traditional attitudes to leadership by exploring the often overlooked role of women as leaders and drivers of social change. The text draws on a number of complex case studies in Asia and

the Pacific in order to demonstrate how young women around the world have developed organised approaches to leadership that are often collective, collaborative, and transformative. However, as the authors reveal, they also deviate from traditional forms of leadership that have dominated the literature and public understanding. This book will be of interest to students and scholars of the theory and/or practice of leadership. More broadly, it will also be useful for students and scholars of political science, international studies, peace and conflict studies, international and community development, leadership studies, cultural studies, youth studies, and gender studies.

**999** Dec 31 2019 A PEN America Literary Award Finalist A Goodreads Choice Awards Nominee An Amazon Best of the Year Selection The untold story of some of WW2's most hidden figures and the heartbreaking tragedy that unites them all. Readers of *Born Survivors* and *A Train Near Magdeburg* will devour the tragic tale of the first 999 women in Auschwitz concentration camp. This is the hauntingly resonant true story that everyone should know. On March 25, 1942, nearly a thousand young, unmarried Jewish women, many of them teenagers, boarded a train in Poprad, Slovakia. Believing they were going to work in a factory for a few months, they were eager to report for government service and left their parents' homes wearing their best clothes and confidently waving good-bye. Instead, the young women were sent to Auschwitz. Only a few would survive. Now acclaimed author Heather Dune Macadam reveals their stories, drawing on extensive interviews with survivors, and consulting with historians, witnesses, and relatives of those first deportees to create an important addition to Holocaust literature and women's history. "Intimate and harrowing. . . . This careful, sympathetic history illuminates an incomprehensible human tragedy." —Publishers Weekly "Against the backdrop of World War II, this respectful narrative presents a compassionate and meticulous remembrance of the young women profiled throughout. Recommended for all collections." —Library Journal "Staggering . . . profound. [Macadam's] book also offers insight into the passage of these women into adulthood, and their children, as 'secondhand survivors.'" —Gail Sheehy, New York Times bestselling author of *Passages* and *Daring: My Passages* "Heather Dune Macadam's 999 reinstates the girls to their rightful place in history." —Foreword Reviews "An important addition to the annals of the Holocaust, as well as women's history. Not everyone could handle such material, but Heather Dune Macadam is deeply qualified, insightful, and perceptive." —Susan Lacy, creator of the American Masters series and filmmaker "The story of these teenage girls is truly extraordinary. Congratulations to Heather Dune Macadam for enabling the rest of us to sit down and just marvel at how on earth they did it." —Anne Sebba, New York Times bestselling author of *Les Parisiennes* and *That Woman* "An important contribution to the literature on women's experiences." —Dr. Rochelle G. Saidel, founder and executive director, Remember the Women Institute

**Go West, Young Women!** Mar 14 2021 In the early part of the twentieth century, migrants made their way from rural homes to cities in record numbers and many traveled west. Los Angeles became a destination. Women flocked to the growing town to join the film industry as workers and spectators, creating a "New Woman." Their efforts transformed filmmaking from a marginal business to a cosmopolitan, glamorous, and bohemian one. By 1920, Los Angeles had become the only western city where women outnumbered men. In *Go West, Young Women*, Hilary A. Hallett explores these relatively unknown new western women and their role in the development of Los Angeles and the nascent film industry. From Mary Pickford's rise to become perhaps the most powerful woman of her age, to the racist moral panics of the post-World War I years that culminated in Hollywood's first sex scandal, Hallett describes how the path through early Hollywood presaged the struggles over modern gender roles that animated the century to come.
