Brachytherapy Physics Jan 29 2020 This text is organized into 6 sections: Fundamentals; Dosimetry; Interstitial Fundamentals; Interstitial Applications; Intercavitary Applications for Gynecological Cancer, and Unconventional Delivery Systems. The book includes a CD-ROM containing an electronic version of the book (with many illustrations in full color) plus a compiled list of references.

Technical Basis of Radiation Therapy Jun 27 2022 This book, now in its fourth edition, is unique in detailing in depth the technological basis of radiation therapy. Compared with the previous edition, all chapters have been rewritten and updated. In addition, new chapters have been included on various topics, including the use of imaging in treatment planning, second malignant neoplasms due to irradiation, and quality assurance in radiation oncology. The book is divided into two sections. The first covers basic concepts in treatment planning, including essential physics, and explains the various approaches to radiation therapy, such as intensity-modulated radiation therapy, tomotherapy, and high and low dose rate brachytherapy. The second part documents the practical clinical applications of these concepts in the treatment of different cancers. All of the chapters have been written by leaders in the field. This book will serve to instruct and acquaint teachers, students and practitioners in the various fields of oncology with the basic technological factors and approaches in radiation therapy.

Backpage.com's Knowing Facilitation of Online Sex Trafficking Mar 25 2022 The National Center for Missing and Exploited Children (NCMEC) reported an 846-percent increase in reports of suspected child sex trafficking from 2010 to 2015—a spike the organization found to be "directly correlated to the increased use of the Internet to sell children for sex." Backpage.com sits at the center of that online black market. This is a large, profitable company: Backpage operates in 97 countries and 934 cities worldwide and was last valued at well over a half-billion dollars. According to an industry analysis in 2013, eight out of every ten dollars spent on online commercial sex advertising in the United States went to one website—Backpage. According to the National Center for Missing and Exploited Children Backpage is linked to nearly three-quarters of all suspected child sex trafficking reports that it receives from the general public through its "CyberTipline." And according to a leading anti-trafficking organization called "Shared Hope International," "[s]ervice providers working with child sex trafficking victims have reported that between 80 percent and 100 percent of their clients have been bought and sold on Backpage.com." Backpage has concealed evidence of crimes by systematically deleting words and images suggestive of illegal conduct from advertisements submitted to their website before publishing the ads. And some of those ads involved child sex trafficking. Backpage's editing process sanitized the content of millions of advertisements and hid important evidence from law enforcement.

Disciple IV Jul 17 2021 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Grounds of Natural Philosophy Apr 13 2021 This edition aims to make Margaret Cavendish's most mature philosophical work more accessible to students and scholars of the period. Grounds of Natural Philosophy is important not only because it is Cavendish's final articulation of her metaphysics but also because it succinctly outlines her fundamental views on "the nature of nature"—or the base substance and mechanics of all natural matter—and vividly demonstrates her probabilistic approach to philosophical enquiry. Moreover, Grounds spends considerable time discussing the human body, including the functions of the mind, a topic of growing interest to both historians of philosophy and literary scholars. This Broadview Edition opens to modern readers a vibrant, unique, and provocative voice of the past that challenges our standard view of seventeenth-century English philosophy.

Dragondoom Jun 15 2021 A thousand years before the Winter War, Elgo, prince of the Vanadurin, killed the Dragon Sleeth and returned home with the fabulous wealth from the dead beast's lair. But there was more in the bounty than gems and gold, for the treasure was cursed, and in time it brought death to noble and peasant, war between Man and Dwarf, strife and destruction beyond reckoning. Now, generations later, as the conflict continues, the great Dragon Black Kalgalath, in league with the Wizard Andrak, appears to avenge Sleeth's death and claim the Dragon-cursed hoard. Against this unholy alliance, two sworn enemies set forth to find a legendary long-lost weapon: a warhammer of incalculable power that may be the only hope of victory. But neither the Warrior Maiden Elyn nor the Dwarf Thork is prepared for the dangers awaiting them on this quest...

Millionaire by Thirty Oct 20 2021 Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Deconstructing Early Childhood Education Jan 11 2021 From a critical perspective, some early childhood educators have proposed that the knowledge base used to ground the field actually serves to support the status quo, reinforces prejudices and stereotypes, and ignores the real lives of children. The purpose of this book is to deconstruct early childhood education, identifying and evaluating the themes and forms of discourse that have dominated the field, leading to the construction of specific theories and forms of practice that privilege particular groups of children and adults and oppress others. An alternative avenue for early childhood education is posited that focuses on social justice and human agency.

Adaptive Radiation Therapy Aug 30 2022 Modern medical imaging and radiation therapy technologies are so complex and computer driven that it is difficult for physicians and technologists to know exactly what is happening at the point-of-care. Medical physicists responsible for filling this gap in knowledge must stay abreast of the latest advances at the intersection of medical imaging and radiation therapy. This book provides medical physicists and radiation oncologists current and relevant information on Adaptive Radiation Therapy (ART), a state-of-the-art approach that uses a feedback process to account for patient-specific anatomic and/or biological changes, thus delivering highly individualized radiation therapy for cancer patients. The book should also benefit medical dosimetrists and radiation therapists. Adaptive Radiation Therapy describes technological and methodological advances in the field of ART, as well as initial clinical experiences using ART for selected anatomic sites. Divided into three sections (radiobiological basis, current technologies, and clinical applications), the book covers: Morphological and biological biomarkers for patient-specific planning Design and optimization of treatment plans Delivery of IMRT and IGRT intervention methodologies of ART Management of intrafraction variations, particularly with respiratory motion Quality assurance needed to ensure the safe delivery of ART ART applications in several common cancer types / anatomic sites The technology and methodology for ART have advanced significantly in the last few years and accumulated clinical data have demonstrated the need for ART in clinical settings, assisted by the wide application of intensity modulated radiation therapy (IMRT) and image-guided radiation therapy (IGRT). This book shows the real potential for supplying every patient with individualized radiation therapy that is maximally accurate and precise.

Sick May 27 2022 Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers—the ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. Praise for SICK "The gore and action will leave enthralled readers thrilled and then sated with each kill on either side." —Booklist "Between the pacing and the heroes' salty, blue language (full of lovingly creative, genital-inspired insults), reluctant readers who love zombies will devour it, right up to the abrupt end." —Kirkus Reviews "Sick is well written, with great detail, even if it is a little gory." —VOYA Magazine Awards 2014 Quick Picks for Reluctant Young Readers list from YALSA
