Celebrating the Fourth Jul 17 2021 In *Celebrating the Fourth* Len Travers traces the origins and functions of the quintessential American holiday from the first festivals in 1777 to the Jubilee of Independence in 1826. Applying anthropological analyses of social rituals, he skillfully explicates the rich symbolic content of such activities as processions, banquets and entertainments. By examining Fourth of July celebrations in Boston, Philadelphia and Charleston, he is able to discuss the interplay between local/regional and national identities and interests.

**Frederick Douglass and the Fourth of July** Feb 09 2021 On July 5th, 1852, Frederick Douglass, one of the greatest orators of all time, delivered what was arguably the century's most powerful abolition speech. At a time of year where American freedom is celebrated across the nation, Douglass eloquently summoned the country to resolve the contradiction between slavery and the founding principles of our country. In this book, James A. Colaiaco vividly recreates the turbulent historical context of Douglass' speech and delivers a colorful portrait of the country in the turbulent years leading to the civil war. This book provides a fascinating new perspective on a critical time in American history.

*The Fourth Turning* Sep 06 2020 NATIONAL BESTSELLER • “A startling vision of what the cycles of history predict for the future.”—USA Weekend William Strauss and Neil Howe will change the way you see the world—and your place in it. With blazing originality, *The Fourth Turning* illuminates the past, explains the present, and reimagines the future. Most

remarkably, it offers an utterly persuasive prophecy about how America's past will predict its future. Strauss and Howe base this vision on a provocative theory of American history. The authors look back five hundred years and uncover a distinct pattern: Modern history moves in cycles, each one lasting about the length of a long human life, each composed of four eras—or "turnings"—that last about twenty years and that always arrive in the same order. In *The Fourth Turning*, the authors illustrate these cycles using a brilliant analysis of the post-World War II period. First comes a High, a period of confident expansion as a new order takes root after the old has been swept away. Next comes an Awakening, a time of spiritual exploration and rebellion against the now-established order. Then comes an Unraveling, an increasingly troubled era in which individualism triumphs over crumbling institutions. Last comes a Crisis—the Fourth Turning—when society passes through a great and perilous gate in history. Together, the four turnings comprise history's seasonal rhythm of growth, maturation, entropy, and rebirth. The Fourth Turning offers bold predictions about how all of us can prepare, individually and collectively, for America's next rendezvous with destiny.

Book of the Fourth World May 27 2022 The *Book of the Fourth World* offers detailed analyses of texts that range far back into the centuries of civilised life from what is now Latin- and Anglo-America. At the time of its 'discovery', the American continent was identified as the Fourth World of our planet. In the course of just a few centuries its original inhabitants, though settled there for millennia and countable in many millions, have come to be perceived as a marginal if not entirely dispensable factor in the continent's destiny. Today the term has been taken up again by its native peoples, to describe their own world: both its threatened present condition, and its political history, which stretches back thousands of years before Columbus. In order to explore the literature of this world, Brotherston uses primary sources that have traditionally been ignored because they have not conformed to Western definitions of oral and written literature, such as the scrolls of the

Algonkin, the knotted strings (Quipus) of the Inca, Navajo dry-paintings and the encyclopedic pages of Meso-America's screenfold books.

*Parading Patriotism* Dec 30 2019 *Parading Patriotism* covers a critical fifty-year period in the nineteenth-century when the American nation was starting to expand and cities across the Midwest were experiencing rapid urbanization and industrialization. Historian Adam Criblez offers a unique and fascinating study of five midwestern cities—Chicago, Cincinnati, Cleveland, Columbus, and Indianapolis—and how celebrations of the Fourth of July in each of them formed a microcosm for the country as a whole in defining and establishing patriotic nationalism and new conceptions of what it was like to be an American. Criblez exposes a rich tapestry of mid-century midwestern social and political life by focusing on the nationalistic rites of Independence Day. He shows how the celebratory façade often masked deep-seated tensions involving such things as race, ethnicity, social class, political party, religion, and even gender. Urban celebrations in these cities often turned violent, with incidents marked by ethnic conflict, racial turmoil, and excessive drunkenness. The celebration of Independence Day became an important political, cultural, and religious ritual on social calendars throughout this time period, and Criblez illustrates how the Midwest adapted cultural developments from outside the region—brought by European immigrants and westward migrants from eastern states like New York, Virginia, and Massachusetts. The concepts of American homegrown nationalism were forged in the five highlighted midwestern cities, as the new country came to terms with its own independence and how historical memory and elements of zealous and belligerent patriotism came together to construct a new and unique national identity. This ground-breaking book draws on both unpublished sources (including diaries, manuscript collections, and journals) and copious but under-utilized print resources from the region (newspapers, periodicals, travelogues, and pamphlets) to uncover the roots of how the Fourth of July holiday is celebrated today. Criblez's insightful book shows how political independence and republican government was promoted through rituals and ceremonies that were forged in the wake of this historical moment.

The Fourth Industrial Revolution Jun 03 2020 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in

which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

**My Fourth of July** Nov 01 2022 Picnics! Singing! Fireworks! It's time to celebrate the best day of all--the Fourth of July!
