Popular Photography Mar 14 2021 Lighting Design for Commercial Portrait Photography Aug 26 2019 Effective commercial portraiture is heavily reliant on clean, crisp lighting looks that emphasize color, contrast, contours, and texture to allow viewers of magazines, newspapers, television, and movies to view a product or model/celebrity in a precise and predetermined way that suits the overall marketing campaign and leaves viewers with a specific, conscripted feeling about the product /person being shown. Crafting this type of polished lighting requires absolute proficiency with the tools of the trade, from flash, to beauty lights, to softboxes, to gobos and gels. It also requires thinking outside the box to create lighting with a "hook"—a certain quality that binds the look to the brand identity and can be carried out repeatedly across several advertising campaigns. Whether you are producing album cover art, lingerie shoots for an intimates catalog, or production stills for television shows or movies, Jennifer Emery will give you the technical and creative skill set you need to thrive artistically, work efficiently with models and set designers, and win repeat clients. Beginning with essential strategies for finding and casting talent, paying/trading with that talent, and creating an open dialogue throughout the directorial stages, Jennifer builds a solid foundation from which the artistic concept can spring forth. In the following chapters, she presents text and images that will instruct readers on creating numerous looks/projects, including: (1) Beauty lighting for beauty/cosmetics ads (2) High-Key Lighting for a magazine cover shoot, (3) Lighting groups for a movie/TV poster, (4) Sculpting light for boudoir/lingerie/swimsuit/nude photograph, (5) Working with speedlights/flash for editorial fashion and lifestyle shoots, and (6) Lighting exterior locations for high fashion and fashion editorial work. repertoire of skills, an ability to overcome challenges, and the confidence needed to nail the shot every time.

Manuals Combined: U.S. Navy Journalist Basic, Journalist Advanced And Journalist 3 & 2 Training Publications May 28 2022 Over 1,300 total pages ... To the young man or woman choosing a Navy career field, whether for one enlistment or for 30 years, the journalist rating offers endless avenues for an imaginative, yet mature, thinker. Many of the duties and responsibilities of the journalist rank among Americans' favorite hobbies and pastimes, such as writing, broadcasting and photography. The Navy journalist learns and practices a distinguished profession and becomes an official representative of the Navy in public affairs matters. The first enlisted specialists to work full time in the field of Navy journalism were Naval Reserve personnel selected during the early years of World War II. They were designated Specialist X (Naval Correspondents). In 1948, under a major overhaul affecting almost every enlisted rating, the journalist (JO) rating was established. MAJOR TASKS AND RESPONSIBILITIES LEARNING OBJECTIVE: Identify the major tasks and responsibilities of the Navy journalist, the personal traits required for one to best perform the duties of the rating, the applicable NECs, and the purpose of the JO 3 & 2 training manual (TRAMAN). In our democratic society, government depends on the consent of the governed. This important principle means that, in the long run, the United States government does only what the people want it to do. Therefore, we can have a Navy only if the people know and understand the importance of the Navy and support it. The Navy, like the other services, depends on this country's citizens for the four key tools of its trade — personnel, money, materials and the authority to carry out its mission. As a Navy journalist, your main function will be to make the facts about your Navy available to the Navy's three main publics — the people at your ship or station, Navy people in general and the people of the United States as a whole.
