The Tomb of God Aug 25 2022 It began as an intriguing piece of puzzle-solving - and ended with the discovery of the greatest secret of all. Dissatisfied with the explanations of previous researchers, Richard Andrews and Paul Schellenberger applied mathematical logic to the enduring mystery of the Rennes-le-Chateau and the 'treasure' alleged to be buried there. The quest began with an investigation into the activities of a group of 19th century priests who had become embroiled in the legend. These priests had grown rich because of their involvement and had maintained the anonymity of the paymasters, but in 1993 an extraordinary clue came to light which suggested the priests were engaged in activities at odds with traditional Roman Catholic pastimes. A series of paintings was unearthed which incorporated a cryptic, obscure geometry; a set of interrelating shapes with a very direct link to the priests' habitat and spiritual role. Through the centuries a pattern emerged - a web of concealment on maps, in fine art, on tombstones which defied coincidence and pointed to one very specific location...

Prince2 Foundation Training Manual Jun 23 2022 Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

The Self-Build Experience May 22 2022 This book investigates self-build housing for low and middle-income groups in urbanized areas in three different continents: South America (Brazil and Ecuador), Europe (the Netherlands, Albany, and Turkey) and Africa (Ethiopia, Egypt and Burkina Faso). Although the levels of social and economic prosperity and the related housing and urban context across these three continents are vastly different, there is a recurring central field of tension of governmental regulation vis- -vis societal self-regulation. The following question will be at the center of the book: How is the capacity for self-regulation in practices of self-build housing and facilities related to formal domains of governance and regulation and how can this relationship be optimized to create more socially sustainable forms of urbanization?
