14th Chaotic Modeling and Simulation International Conference Mar 20 2022 Gathering the proceedings of the 14th CHAOS2021 International Conference, this book highlights recent developments in nonlinear, dynamical and complex systems. The conference was intended to provide an essential forum for Scientists and Engineers to exchange ideas, methods, and techniques in the field of Nonlinear Dynamics, Chaos, Fractals and their applications in General Science and the Engineering Sciences. The respective chapters address key methods, empirical data and computer techniques, as well as major theoretical advances in the applied nonlinear field. Beyond showcasing the state of the art, the book will help academic and industrial researchers alike apply chaotic theory in their studies. Chapter "On the Origin of the Universe: Chaos or Cosmos" is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

[Yinka, Where Is Your Huzband?](#) Oct 15 2021 "Meet Yinka: a thirty-something, Oxford-educated,

British Nigerian woman with a well-paid job, good friends, and a mother whose constant refrain is "Yinka, where is your husband?" Yinka's Nigerian aunties frequently pray for her delivery from singledom, her work friends think she's too traditional (she's saving herself for marriage!), her girlfriends think she needs to get over her ex already, and the men in her life...well, that's a whole other story. But Yinka herself has always believed that true love will find her when the time is right. Still, when her cousin gets engaged, Yinka commences Operation Find-A-Date for Rachel's Wedding. Aided by a spreadsheet and her best friend, Yinka is determined to succeed. Will Yinka find herself a husband? And what if the thing she really needs to find is herself? Yinka, Where is Your Husband? brilliantly subverts the traditional romantic comedy with an unconventional heroine who bravely asks the questions we all have about love. Wry, acerbic, moving, this is a love story that makes you smile but also makes you think--and explores what it means to find your way between two cultures, both of which are yours"--

Matrix Aug 01 2020 NEW YORK TIMES BESTSELLER SHORTLISTED FOR THE NATIONAL BOOK AWARD 2021 A BARACK OBAMA BEST BOOKS PICK 2021 'Lush, gripping and ferocious, MATRIX is animated with sensual detail on every page' MADELINE MILLER 'An audacious piece of storytelling, full of passion, wisdom and magic' SARAH WATERS 'A gorgeous, sensual, addictive read' SARA COLLINS Seventeen-year-old Marie, too wild for courtly life, is thrown to the dogs one winter morning, expelled from the royal court to become the prioress of an abbey. Marie is strange - tall, a giantess, her elbows and knees stick out, ungainly. At first taken aback by life at the abbey, Marie finds purpose and passion among her mercurial sisters. Yet she deeply misses her secret lover Cecily and queen Eleanor. Born last in a long line of women warriors and crusaders, women who flew across the countryside with their sword fighting and dagger work, Marie decides to chart a bold new course for the women she now leads and protects. She will bring herself, and her sisters, out of the darkness, into riches and power. MATRIX is a bold vision of female love, devotion and desire from one of the most adventurous writers at work today. 'A thrillingly vivid, adventurous story about women and power that will blow readers' minds. Left me gasping.' EMMA DONOGHUE 'Both epic and intimate, this sweeping novel explores questions of female ambition, creativity and passion with electrifying prose and sparkling wit. A propulsive, captivating read' BRIT BENNETT 'A dazzlingly clever tale' THE TIMES 'A remarkable novel: unusual, profound, transcendental' EVENING STANDARD

Union Made Jul 12 2021 Unsung hero Samuel Gompers worked tirelessly to ensure that no American worker would go unheard or overlooked, dedicating his life to fighting for their rights. This comprehensive middle-grade biography provides an in-depth look at Gompers, the founding father of the American Federation of Labor. Born in England, Samuel Gompers grew up watching his father roll cigars, and at 10 years old, started rolling them himself. After immigrating to the United States, Gompers soon discovered his vocation to fight for the American laborer in his personal work experience. His charismatic, outspoken personality soon landed him the role of speaking on behalf of his fellow workers. His participation in various unsuccessful unions and other failed ventures to enact labor changes led to his creation of the American Federation of Labor. Faced with strikes that turned violent, opposition from the government, and lies perpetrated by anti-unionizers, Gompers persevered, and lived to see various measures enacted to ensure safe work environments, workers' compensation, and other basic laborer rights.

Pioneers, Settlers, Aliens, Exiles Dec 25 2019 What did the future hold for Rhodesia's white population at the end of a bloody armed conflict fought against settler colonialism? Would there be a place for them in newly independent Zimbabwe? PIONEERS, SETTLERS, ALIENS, EXILES sets out the terms offered by Robert Mugabe in 1980 to whites who opted to stay in the country they thought of as their home. The book traces over the next two decades their changing relationship with the country when the post-colonial government revised its symbolic and

geographical landscape and reworked codes of membership. Particular attention is paid to colonial memories and white interpellation in the official account of the nation's rebirth and indigene discourses, in view of which their attachment to the place shifted and weakened. As the book describes the whites' trajectory from privileged citizens to persons of disputed membership and contested belonging, it provides valuable background information with regard to the land and governance crises that engulfed Zimbabwe at the start of the twenty-first century.

How Asia Works Oct 03 2020 "A good read for anyone who wants to understand what actually determines whether a developing economy will succeed" (Bill Gates, "Top 5 Books of the Year"). An Economist Best Book of the Year from a reporter who has spent two decades in the region, and who The Financial Times said "should be named chief myth-buster for Asian business." In *How Asia Works*, Joe Studwell distills his extensive research into the economies of nine countries—Japan, South Korea, Taiwan, Indonesia, Malaysia, Thailand, the Philippines, Vietnam, and China—into an accessible, readable narrative that debunks Western misconceptions, shows what really happened in Asia and why, and for once makes clear why some countries have boomed while others have languished. Studwell's in-depth analysis focuses on three main areas: land policy, manufacturing, and finance. Land reform has been essential to the success of Asian economies, giving a kick-start to development by utilizing a large workforce and providing capital for growth. With manufacturing, industrial development alone is not sufficient, Studwell argues. Instead, countries need "export discipline," a government that forces companies to compete on the global scale. And in finance, effective regulation is essential for fostering, and sustaining growth. To explore all of these subjects, Studwell journeys far and wide, drawing on fascinating examples from a Philippine sugar baron's stifling of reform to the explosive growth at a Korean steel mill. "Provocative . . . *How Asia Works* is a striking and enlightening book . . . A lively mix of scholarship, reporting and polemic." —The Economist

Power Born of Dreams Sep 26 2022 What does freedom look like from inside an Israeli prison? The walls of the cell are etched with the names of the prisoners who came before. A bird perches on the cell window and offers a deal: "You bring the pencil, and I will bring the stories," stories of family, of community, of Gaza, of Palestine. Mohammad Sabaaneh brings uses his striking linocut artwork to help the world see Palestinian people as human, not as superheroes or political symbols.

United States of Socialism Apr 28 2020 The New York Times, USA Today, Publishers Weekly, and Wall Street Journal Bestseller For those who witnessed the global collapse of socialism, its

resurrection in the twenty-first century comes as a surprise, even a shock. How can socialism work now when it has never worked before? In this pathbreaking book, bestselling author Dinesh D'Souza argues that the socialism advanced today by the likes of Alexandria Ocasio-Cortez, Bernie Sanders, Ilhan Omar and Elizabeth Warren is very different from the socialism of Lenin, Mao and Castro. It is "identity socialism," a marriage between classic socialism and identity politics. Today's socialists claim to model themselves not on Mao's Great Leap Forward or even Venezuelan socialism but rather on the "socialism that works" in Scandinavian countries like Norway and Sweden. This is the new face of socialism that D'Souza confronts and decisively refutes with his trademark incisiveness, wit and originality. He shows how socialism abandoned the working class and found new recruits by drawing on the resentments of race, gender and sexual orientation. He reveals how it uses the Venezuelan, not the Scandinavian, formula. D'Souza chillingly documents the full range of lawless, gangster, and authoritarian tendencies that they have adopted. *United States of Socialism* is an informative, provocative and thrilling exposé not merely of the ideas but also the tactics of the socialist Left. In making the moral case for entrepreneurs and the free market, the author portrays President Trump as the exemplar of capitalism and also the most effective political leader of the battle against socialism. He shows how we can help Trump defeat the socialist menace.

Africa, the Cradle of Human Diversity Aug 13 2021 "This book explores important chapters of past and recent African history from a multidisciplinary perspective. It covers an extensive time range from the evolution of early humans to the complex cultural and genetic diversity of modern-day populations in Africa. Through a comprehensive list of chapters, the book focuses on different time-periods, geographic regions and cultural and biological aspects of human diversity across the continent. Each chapter summarises current knowledge with perspectives from a varied set of international researchers from diverse areas of expertise. The book provides a valuable resource for scholars interested in evolutionary history and human diversity in Africa. A Misplaced Massacre Jul 20 2019 On November 29, 1864, over 150 Native Americans, mostly women, children, and elderly, were slaughtered in one of the most infamous cases of state-sponsored violence in U.S. history. Kelman examines how generations of Americans have struggled with the question of whether the nation's crimes, as well as its achievements, should be memorialized.

The New Sultan Aug 25 2022 In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner

Cagaptay will look at Erdoğan's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.

Can't Pay, Won't Pay Jan 18 2022 Debtors have been mocked, scolded and lied to for decades. We have been told that it is perfectly normal to go into debt to get medical care, to go to school, or even to pay for our own incarceration. We've been told there is no way to change an economy that pushes the majority of people into debt while a small minority hoard wealth and power. The coronavirus pandemic has revealed that mass indebtedness and extreme inequality are a political choice. In the early days of the crisis, elected officials drew up plans to spend trillions of dollars. The only question was: where would the money go and who would benefit from the bailout? The truth is that there has never been a lack of money for things like housing, education and health care. Millions of people never needed to be forced into debt for those things in the first place. Armed with this knowledge, a militant debtors movement has the potential to rewrite the contract and assure that no one has to mortgage their future to survive. Debtors of the World Must Unite. As isolated individuals, debtors have little influence. But as a bloc, we can leverage our debts and devise new tactics to challenge the corporate creditor class and help win reparative, universal public goods. Individually, our debts overwhelm us. But together, our debts can make us powerful.
