365 Cars You Must Drive Aug 13 2021 What began as a solution for transportation has evolved into a desire for speed, luxury, personal expression, and freedom. For many, the thrill of the drive has eclipsed the pure utility of the automobile. And the pursuit of that thrill is the driving force behind 365 Cars You Must Drive. From the Ford Model T to the Porsche Carrera GT, there are certain cars that any self-respecting auto enthusiast just has to know—and experience from the driver's seat. With homage to the greatest cars and good-natured mockery of the strangest, authors Matt Stone and John Matras detail which cars to drive and why, how to get behind the wheel, where to drive them, and who to invite along for the ride. Each entry contains a colorful spec box noting the car's claim to fame, a Did You Know? factoid, the author's clever suggestions for "The Perfect Passenger" and the "Soundtrack" coming out of the speakers, Behind the Wheel notes, and a "Perfect Drive" for the marque or model covered. Engine details, production information, the price when it debuted and the collectible price now - all of it adds up to at-a-glance fun reading to go with informative essays on each car, archival and full-color photos, and more. See Motorbooks author Matt Stone interviewed by Jay Leno on JayLenosGarage.com: <http://www.jaylenogarage.com/video/jays-book-club-matt-stone/1164286/>

How to Build & Power Tune Distributor-Type Ignition Systems Jun 23 2022 Expert practical advice from an experienced race engine builder on how to build an ignition system that delivers maximum power reliably. A lot is talked about ignition systems and there is a bewildering choice of expensive aftermarket parts, which all claim to deliver more power. Des Hammill cuts through the myth and hyperbole and tells readers what really works, so that they can build an excellent system without wasting money on parts and systems that simply don't deliver. Ignition timing and advance curves for modified engines is another minefield for the inexperienced, but Des uses his expert knowledge to tell readers how to optimize the ignition timing of any high-performance engine.

Partnering with Chinese Firms Feb 19 2022 This title was first published in 2000: This work is aimed at international managers or business students who are interested in emerging markets, particularly China. It provides conceptual backgrounds, analytical frameworks, managerial insights, business guidance, and practical evidence concerning partner selection for both foreign and Chinese investors. It addresses how foreign companies should select ideal Chinese firms as well as what Chinese firms are looking for from foreign investors. The book is divided into three parts. The first part presents an overview of multinational enterprises (MNEs) in China and outlines the economic environment facing these firms. The second part delineates how to select appropriate partner firms from both foreign and Chinese parents perspectives. The third part includes ten case studies showing how leading MNEs in the world adopt entry and co-operative strategies (including partner selection) that align properly with internal capabilities, external environment, and organizational needs. Based on a variety of archival and Internet sources, these case studies are prepared by the author for discussion purposes.

Citroen Jun 18 2019 In this new view of the Citroen story, automotive/aviation writer and design specialist Lance Cole investigates not just the details of the cars of Citroen, but the aeronautical and cultural origins that lay behind Citroen's form and function. The book digs deep into the ethos of Automobiles Citroen to create a narrative on one of the greatest car manufacturers in history. Using interviews, translations, archive documents and specially-commissioned photographs, the Citroen journey is cast in a fresh perspective. It explains in detail the influences upon Citroen design: Voisin, Lefebvre, Bertoni, Boulanger, Mages, Opron and recent Citroen designers such as Coco, Blakeslee and Soubirou. As well as all the men of the great period of 1920s-1970s expansion, it also cites less well-known names of Citroen's French engineering, design, and influence such as Cayla, Gerin, Giret, Harmand, Dargent and others, to give a full picture of Citroen heritage. The book provides in-depth analysis of all major Citroen models with an engineering and design focus and profiles key individuals and cars up to the present day and Citroen's 'DS'-branded resurgence. It features many newly commissioned photographs, rare archive drawings and interviews with Citroen owners. Researched amongst leading Citroen experts and restorers, Lance Cole provides a fresh perspective on the Citroen car manufacturer, its design language and the legacy of its extraordinary engineering which will be of great interest to all Citroen and motoring enthusiasts. Superbly illustrated with 329 colour photographs, many newly commissioned along with rare archive drawings.
