**Explanation in typology** Jul 25 2019 This volume provides an up-to-date discussion of a foundational issue that has recently taken centre stage in linguistic typology and which is relevant to the language sciences more generally: To what extent can cross-linguistic generalizations, i.e. statistical universals of linguistic structure, be explained by the diachronic sources of these structures? Everyone agrees that typological distributions are the result of complex histories, as “languages evolve into the variation states to which synchronic universals pertain” (Hawkins 1988). However, an increasingly popular line of argumentation holds that many, perhaps most, typological regularities are long-term reflections of their diachronic sources, rather than being ‘target-driven’ by overarching functional-adaptive motivations. On this view, recurrent pathways of reanalysis and grammaticalization can lead to uniform synchronic results, obviating the need to postulate global forces like ambiguity avoidance, processing efficiency or iconicity, especially if there is no evidence for such motivations in the genesis of the respective constructions. On the other hand, the recent typological literature is equally ripe with talk of "complex adaptive systems", "attractor states" and "cross-linguistic convergence". One may wonder, therefore, how much room is left for traditional functional-adaptive forces and how exactly they influence the diachronic trajectories that shape universal distributions. The papers in the present volume are intended to provide an accessible introduction to this debate. Covering theoretical, methodological and empirical facets of the issue at hand, they represent current ways of thinking about the role of diachronic sources in explaining grammatical universals, articulated by seasoned and budding linguists alike.

**Leadership-as-Practice** Sep 18 2021 This book develops a new paradigm in the field of leadership studies, referred to as the "leadership-as-practice" (L-A-P) movement. Its essence is its conception of leadership as occurring as a practice rather than residing in the traits or behaviours of particular individuals. A practice is a coordinative effort among participants who choose through their own rules to achieve a distinctive outcome. It also tends to encompass routines as well as problem-solving or coping skills, often tacit, that are shared by a community. Accordingly, leadership-as-practice is less about what one person thinks or does and more about what people may accomplish together. It is thus concerned with how leadership emerges and unfolds through day-to-day experience. The social and material contingencies impacting the leadership constellation – the people who are effecting leadership at any given time – do not reside outside of leadership but are very much embedded within it. To find leadership, then, we must look to the practice within which it is occurring. The leadership-as-practice approach resonates with a number of closely related traditions, such as collective, shared, distributed, and relational leadership, that converge on leadership processes. These approaches share a line of inquiry that acknowledges leadership as a social phenomenon. The new focus opens up a plethora of research opportunities encouraging the study of social processes beyond influence, such as intersubjective agency, shared sense-making, dialogue, and co-construction of responsibilities.

**Keep Moving: The Journal** Apr 01 2020 Based on the national bestseller Keep Moving—called “a meditation on kindness and hope” (NPR)—a 52-exercise journal about hope and renewal from the award-winning poet. As Maggie Smith navigated loss and upheaval, she wrote to herself each day—forgiving herself for a past mistake, reflecting on moments of joy, or looking towards the future, ending each note-to-self with the phrase “keep moving.” In her own words, “I wasn’t offering wisdom from on high; I was talking to myself at the bottom of a dark well, trying to climb up into the light, little by little, day by day.” Smith was surprised not only by how uplifting this process was, but also by the outpouring of support and gratitude from thousands of people who found solace in her words. Through the healing power of writing, Keep Moving: The Journal invites us to find beauty in the present moment, embrace change, and create a life we love.

**Untranquil Recollections** Aug 06 2020 Rehman Sobhan was directly associated with Bangladesh’s liberation struggle. In this memoir, he provides an insightful, first-hand account of the challenges faced by the newly independent Bangladesh in the early years of its existence. This book attempts to capture the unique problems of reconstructing the war-devastated economy while building institutions from ground up for a nation which for 24 years had been run through a highly centralized system of colonial-style governance. Untranquil Recollections gives special attention to the author’s involvement, as a Member of the Planning Commission, in addressing the problem of reconstruction while coping with the political challenges associated with building institutions, formulating economic policies and overseeing their implementation. The narrative attempts to identify the economic and political forces that were inimical to the radical direction of the national policy set by Prime Minister Sheikh Mujibur Rahman. The book concludes with a discussion of the dark events leading to Mujibur Rahman’s assassination along with his family and his closest political colleagues, which resulted in a change in the regime.

*Urban and Regional Policy* Apr 13 2021 This volume provides the most important essays and papers on urban and regional policy, making it a convenient summary of the key theories, approaches and research results. The study of sub-national politics is no longer mainly concerned with the urban political decision-making process and now focuses on the political, economic and social preconditions for urban policy. As the articles and papers reprinted in this volume demonstrate, local and regional politics are increasingly important features of most Western democracies. Economic and political life are more and more determined by changes occurring at the local, regional and global levels rather than at the national level. This volume seeks to cover the most important elements of research on local government with a particular emphasis on different approaches and theories of urban political economy. The volume covers, in turn, the study of urban politics and government, theories of local

government, central-local relationships and local autonomy, local politics, the political economy of local government and regional policy.

**The Retreat of Liberal Democracy** Mar 01 2020 This book is the product of three years of empirical research, four years in politics, and a lifetime in a country experiencing three different regimes. Transcending disciplinary boundaries, it provides a fresh answer to a simple yet profound question: why has liberal democracy retreated? Scheiring argues that Hungary's new hybrid authoritarian regime emerged as a political response to the tensions of globalisation. He demonstrates how Viktor Orbán's Fidesz exploited the rising nationalism among the working-class casualties of deindustrialisation and the national bourgeoisie to consolidate illiberal hegemony. As the world faces a new wave of autocratisation, Hungary's lessons become relevant across the globe, and this book represents a significant contribution to understanding challenges to democracy. This work will be useful to students and researchers across political sociology, political science, economics and social anthropology, as well democracy advocates.

**Journal Keeping** Jul 29 2022 \*\* By the authors of the acclaimed Introduction to Rubrics \*\* Major growth of interest in keeping journals or diaries for personal reflection and growth; and as a teaching tool \*\* Will appeal to college faculty, administrators and teachers One of the most powerful ways to learn, reflect and make sense of our lives is through journal keeping. This book presents the potential uses and benefits of journals for personal and professional development--particularly for those in academic life; and demonstrates journals' potential to foster college students' learning, fluency and voice, and creative thinking. In professional life, a journal helps to organize, prioritize and address the many expectations of a faculty member's or administrator's roles. Journals are effective for developing time management skills, building problem-solving skills, fostering insight, and decreasing stress. Both writing and rereading journal entries allow the journal keeper to document thinking; to track changes and review observations; and to examine assumptions and so gain fresh perspectives and insights over past events. The authors present the background to help readers make an informed decision about the value of journals and to determine whether journals will fit appropriately with their teaching objectives or help manage their personal and professional lives. They offer insights and advice on selecting the format or formats and techniques most appropriate for the reader's purposes.

**Battle Green Vietnam** Nov 28 2019 In the spring of 1971, the largest mass arrest in Massachusetts history unfolded at a site nationally celebrated as the birthplace of freedom and democracy. With peace efforts at a standstill, the New England chapter of Vietnam Veterans Against the War had organized an event to rouse public support for their cause. Over the course of the long Memorial Day weekend, a band of more than two hundred young, fatigue-clad veterans sounded the alarm for peace and patriotism by marching--in reverse--the path Paul Revere had taken two centuries earlier when he called on the American colonists to rise against their British oppressors. Enacting the parts of colonial militiamen, the veterans set off in patrol formation along the famed Battle Road, a route calculated to take them past Concord's Old North Bridge, onto Lexington's Battle Green, and up to Bunker Hill. Determined to reanimate the patriotic sentiments expressed by the area's many Revolutionary War memorials, they revealed how far the nation had veered from its ideals by staging reenactments of the brutal atrocities they had witnessed and perpetrated in the name of freedom on the other side of the world. "With an ironic twist," the fliers they distributed explained, "our presence in Indochina as viewed by a native of an occupied village easily coincides with the British army in America." To the selectmen of the town of Lexington who ordered their mass arrest, the veterans were defiling spaces sacred to the nation's Revolutionary past; to the hundreds of bystanders who fed, sheltered, and committed civil disobedience with them, they were an inspiration. Elise Lemire tells this extraordinary story from the perspective of six men who played central roles in the events of May 1971. Based on more than one hundred interviews with participants and accompanied by nearly forty photographs and maps, Battle Green Vietnam demonstrates the power of mobilizing history, myth, and memorials to effect revolutionary change.
